## IMMENSE CROWDS

Greet Judge Taft In Swing Around Hoosier State.  
Indianapolis, Ind., Oct. 24.—The day's exhibition of political enthusiasm in Indiana was such as to eclipse all previous campaigns according to the national and state leaders who have been with the Taft special. So great have been the crowds everywhere that even arrangements of the local committees have been overridden. Appreciating the condition and realizing that while he might be heard by the few, it was better to meet the demand of the many who would be satisfied with a sight of him, Mr. Taft has done less talking and more "exhibition" work than heretofore in the campaign. Wherever he has spoken his remarks have been abbreviated and what he has said has been a repetition of his recent speeches. This one note, however, has dominated his thought.

"Indiana is surely alive to her political responsibility and the character of her enthusiasm means the success of the Republican party."

A drizzling rain for a part of the day and evening and bad railroad service, which set the train more than an hour late before the day's itinerary was much more than half accomplished, seemed to make no impression on the demand for a look at the big candidate and whenever his train was at a standstill, there was no cessation to the cries of approval and shouts of applause which filled the air.

It was reserved for Indianapolis to furnish the climax of the day of crowds and noise. A tremendous parade awaited his arrival with the accessories multiplied and enhanced. Three meetings were attended by the candidate.

### Denounces Rain Fakirs.

Washington, Oct. 24.—In a statement Willis L. Moore, chief of the weather bureau says that rain is now falling in a number of states south and west of New York, and it is more than likely that rain will fall in New York and New England today in sufficient quantities to extinguish forest fires. Professor Moore points out that all efforts of artificial nature to cause rain are but "one of the worst forms of charlatanry" and that "scientists the world over condemn in the strongest terms the efforts of those who take advantage of a public necessity for the purpose of exploiting themselves or securing pecuniary gain."

### GOMPERS DECLARES

That He Will Not Accept Cabinet Portfolio Under Bryan.

New York, Oct. 24.—National Chairman Mack made public the following telegram from Samuel Gompers, president of the American Federation of Labor, and received by Mr. Bryan upon his arrival in Jersey City:

"Just saw President Roosevelt's attack. I deem it my duty to advise you that I am preparing answer. Some newspapers are trying to embarrass you by declaring that you will appoint me member of your cabinet if you are elected president. You may say that I have publicly, emphatically and frequently declared that under no circumstances would I accept any public office, either elective or appointive, and this declaration is irrevocable. The contest of labor is for justice and not for office."

Mr. Mack said that the Democratic committee was receiving reports that the Republicans in West Virginia were enticing Democratic workmen out of the state into Ohio on the promises of work and to keep them out of West Virginia until after election when they would be told that their employment would not begin for sometime.

### Fires Kill Trout.

Y., Oct. 24.—Sportsmen have just discovered that the forest fires in the Adirondacks have worked havoc among the trout with which many streams throughout the burned sections are well stocked. ## MANY DAIRY FARMS ON RUCKERVILLE PIKE

Eleven Regular Dairywomen Drive Into Winchester every Day.

Along the pike leading from this city to Ruckerville there are more dairy farms than on any other road in the country. There are eleven regular dairywomen and two that are engaged in the cream trade.

The following is a list of those engaged in the business: regular dairywomen, Will Haggard, Henry Fielder, Herbert Heflin, G. W. Wells, Will Tuttle, John Rainey, George Ramey, John Adams, Sam Ballard, Mr. Warren, Ellis Noel, and Bob Blanton.

Winfield Thomas and S. M. McKinley are in the cream trade.

Nearly every farm for a distance of 7 1/2 miles out supports a dairy herd and those who do not run a wagon are instrumental in supporting those that do. It is interesting to note the numbers of milk wagons coming in on Broadway, the street leading from Ruckerville. The dairywomen along this route experienced some trouble in supplying the demand this fall on account of the severe drouth. Some had much trouble in supplying their herds with water.

Some of them had to drive their cows long distances to the creeks and springs. The drouth put them to the test this year but there are some very fine springs along Two-mile creek, the most noted of which is the one known as Logan's Lick. It is about five miles from this city on the farm of Mrs. Henderson. It is a very strong stream bubbling straight up out of the ground. It is fine water and was never known to weaken but little, though people hauled water from it for miles.
